The kitchen

Pale oak tones wrap the tall cabinets around a white island. With frameless construction and flat doors, the grain is the first thing you see.

Plan drawer bases around the cooktop, a waste pull-out near the sink and tall storage alongside the oven housings.

Tour a Horst kitchen in Hudson Yards

Hudson Yards kitchen design by VDA Designs.

Horst catalog study in Vicenza Oak and MAXI White.

The arched bar

Two black arches frame the sink and display shelves. Warm light picks out the veining behind them. Across the aisle, the island repeats the dark finish, with fluting above paneled doors and a matching front on the ice maker.

Cabinetry by Horst Company. Design by VDA Designs. General contracting by Northcore Build, countertops by Atlas Marble & Granite and wallcovering by Star Wallcovering.

Watch the finished bar

Walk-in closets

Two levels of hanging rails make room for shirts and jackets. A freestanding island gathers folded pieces into drawers and leaves a surface for packing.

For longer garments, reserve one uninterrupted drop. Open shelves keep shoes and bags in view.

The jewelry drawer

Under glass, velvet-lined compartments keep each piece in view. Narrow padded rows hold rings. Wider divisions leave room for watches and bracelets.

Watch the jewelry drawers open

MORE WARDROBE FITTINGS

Motorized wardrobe lift

Lower an upper rail to reach hanging clothes.

Pull-out valet rod

Set aside an outfit for tomorrow.

Pull-out hampers

Sort laundry in removable fabric bags.

Bath vanities

RECESSED PANELS AND ROUND KNOBS / HORST INSTALLATION

FLUTED FRONTS

Light from a recessed strip skims the wall beneath this floating vanity. The vertical grooves continue across the drawer fronts.

A place to sit

A seated makeup counter can share a run with the sink. Set drawer depths around the plumbing and leave knee space below the counter.

BEVERAGE CABINETRY

Horst installation

Built-ins throughout the home

Coffee stations

Pocket doors slide back beside the cabinet, leaving the counter open for the morning coffee routine.

See the pocket doors in motion

Cabinetry by Horst Company. Design by VDA Designs.

Laundry rooms

A pull-out ironing board unfolds from a drawer, then stows below the worktop.

See the ironing board unfold

Media walls

Frame a recessed screen with illuminated niches and lower cabinets for electronics.

Wood grain & finishes

Four melamine grain patterns from the Horst finish archive.

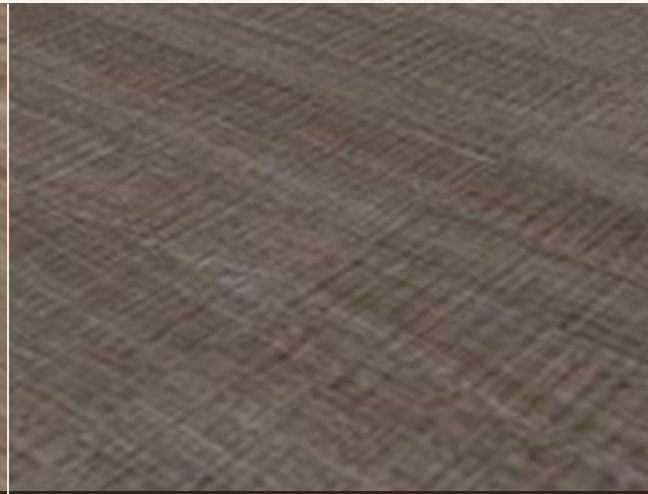

Como Ash 01

Vicenza Oak

Aida 03

Frappe 03

OTHER MATERIAL SELECTIONS

Project specifications include white oak veneer, walnut, prefinished maple plywood and painted fronts.

SHEEN & SAMPLE REVIEW

The MAXI archive includes matte and gloss surfaces. Confirm current availability, grain and sheen with a physical sample.

DOOR PROFILES / ARCHITECTURAL LIGHTING

Finishing details

A recessed Gola channel gives your fingertips a grip while leaving the door face uninterrupted.

Warm shelf lighting

A recessed LED strip washes the surface below. Horst projects use 3000 K lighting in shelves and vanities. Pair the light with your finish sample before settling on the color.

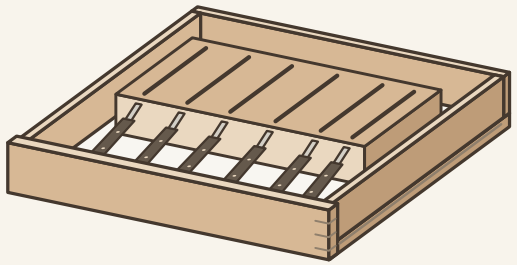

KITCHEN STORAGE

The prep drawer

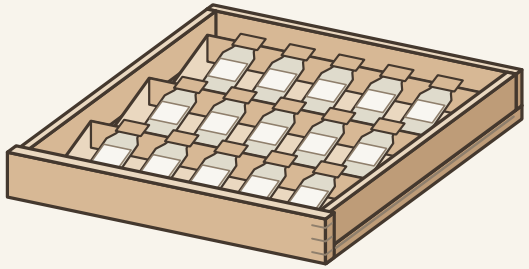

Next to the cooktop, a walnut insert gives flatware and utensils their own compartments. Fit the interior to the tools you reach for every day.

See the walnut organizers

In-drawer knife block

Slots separate the blades and leave the handles easy to grasp.

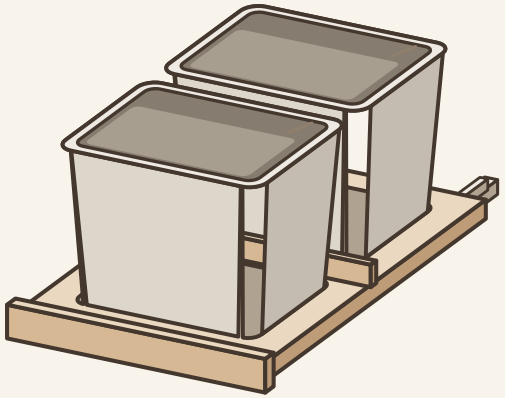

Tiered spice insert

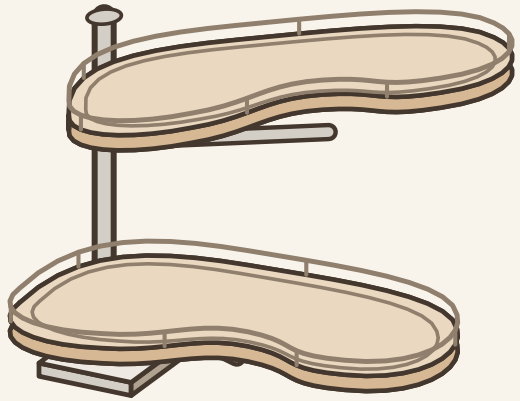

Angled rows keep jar labels in view while you cook.

Pantry & pull-outs

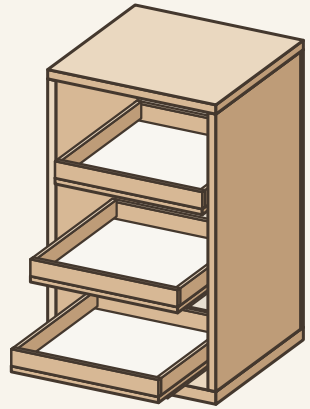

A corner shelf turns. A pantry tray comes forward. Each mechanism puts the back of the cabinet within reach.

SWING-OUT SHELF / HORST INSTALLATION

Double waste pull-out

Two 35-quart bins share one pull-out for trash and recycling.

Swing-out corner

Curved shelves swing through the door opening of a blind base cabinet.

Pantry roll-out trays

Pull each tray out separately to reach groceries stored at the back.

CABINET HARDWARE

Hinges & slides

UNDERMOUNT SLIDE ASSEMBLY

DOOR SWING

Concealed hinges

Blum CLIP top BLUMOTION offers a quiet close for a 110° full-overlay door. Blind-corner doors need their own hinge.

Blum hinge guide

DRAWER TRAVEL

Undermount

Blum TANDEM plus BLUMOTION mounts under the drawer for full extension and a soft close.

Blum TANDEM guide

DRAWER MOUNTING

Side-mount

Ball-bearing slides attach to the drawer sides. Horst specifications include 14-, 16- and 20-inch lengths.

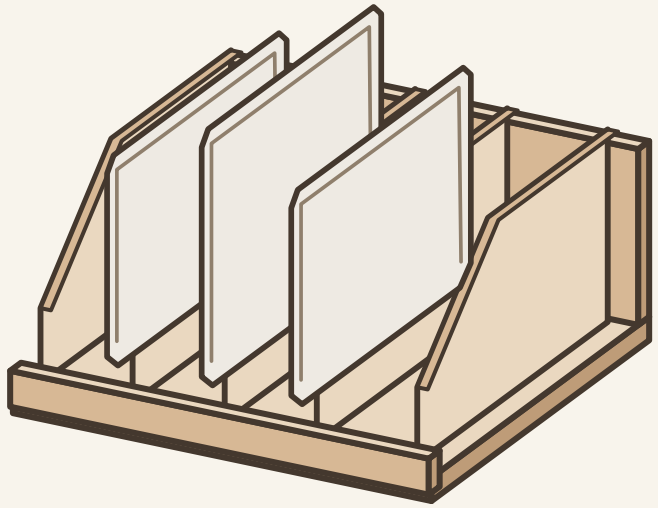

Room for the extras

What takes up the most space in your kitchen? Baking sheets and heavy stacks of plates are two good places to start.

55%

of U.S. Houzz respondents who upgraded their cabinets included storage for baking sheets or trays.

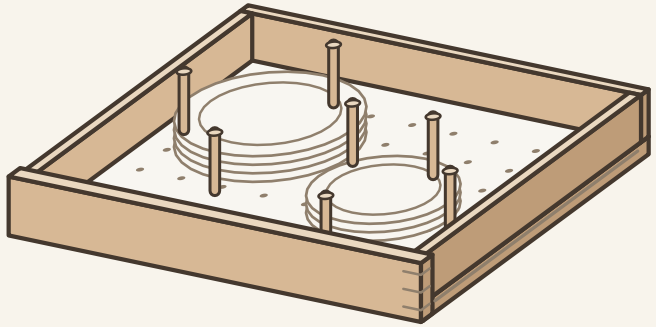

2026 U.S. Houzz Kitchen Trends Study

DESIGN OPTION

Vertical tray dividers

Keep boards and baking sheets upright so one can slide out without moving the stack.

DESIGN OPTION

Adjustable dish pegs

Position pegs around each stack. Choose slides rated for the loaded drawer.

Concept illustrations. Horst will confirm fit and availability for your project.

What would you like your cabinets to do?

ROOM	WHAT YOU WANT TO DO	FITTINGS TO ASK ABOUT
Kitchen	Keep daily tools beside the prep area	Walnut cutlery trays, spice inserts, knife blocks, pull-out paper towel drawers and soft-close appliance lifts.
Pantry	Reach the back of deep cabinets	Roll-out trays, swing-out corner shelves and revolving lazy Susans. Size waste and recycling bins to the clear opening.
Closet	Get ready and put things away	Pull-out pants or tie racks, valet rods, motorized rails, jewelry trays, and single or double laundry hampers.
Bath	Keep counters clear and leave room to sit	Floating drawer bases, vanity towers, seated makeup sections and recessed LED lighting.
Built-ins	Hide an appliance or a work surface	Pocket-door beverage stations, panel-ready ice makers, lift-up fronts and drawer-mounted ironing boards.
